OBJECTIVE

Full-Stack Developer with 2+ years of professional experience in Angular, Node.js, and PostgreSQL, seeking full-time software development roles.

EDUCATION

Bachelor of Computer Applications (BCA), Global Group of Institutes, Punjab 2020 - 2023
Graduated with CGPA of 8.51/10 (equivalent to 80.84%)

Senior Secondary (12th Grade), PSEB 2018 - 2020
Scored 80% with focus on Computer Science and Mathematics

SKILLS

Frontend	Angular, JavaScript, TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap
Backend	Node.js, Sequelize ORM, NestJS, REST APIs, Knex.js
Database	PostgreSQL
DevOps & Tools	AWS (S3), Git & GitHub, Bitbucket, Postman, Linux Basics
Automation & AI	n8n, Gemini & ChatGPT API's Integration, Prompt Engineering

EXPERIENCE

Associate Web Developer Nov 2023 - Nov 2025
[Debugged Pro](#) *Punjab, India*

- Working on real-world projects involving scalable dashboards and back-end systems.
- Developed end-to-end solutions using Angular, Node.js, PostgreSQL, and AWS.
- Collaborated with team to deliver high-quality software solutions.

Full Stack Training Sep 2023 - Oct 2023
[Debugged Pro](#) *Punjab, India*

- Trained in Angular, Node.js, and full-stack development fundamentals.
- Gained hands-on experience with modern web development technologies.
- Completed comprehensive training program covering frontend and backend development.

Industrial Training Jul 2022 - Sep 2022
[Global Group of Institutes](#) *Punjab, India*

- Completed foundational training in HTML, CSS, and JavaScript.
- Gained practical experience in web development fundamentals.
- Learned core concepts of frontend development and responsive design.

PROJECTS

Hire N Ride Aug 2025 - Present
hirenride.com *Backend Developer — NestJS, PostgreSQL, AWS*

- Developing a ride-booking platform that enables users to book, manage, and track rides seamlessly.
- Implementing scalable backend architecture using NestJS with efficient route handling and database management in PostgreSQL.

- Integrating real-time ride updates, booking workflows, and user authentication systems to enhance reliability and performance.
- Contributing to API design, server optimization, and deployment on AWS, ensuring smooth communication between drivers and riders.

Hindutva.site

Personal Project

[hindutva.site](#)

Personal Project — React, Node.js, PostgreSQL, AI Integration

- Designed and developed a spiritual content platform dedicated to Hinduism, featuring sacred texts like the Bhagavad Gita and various Hindu mantras for users to explore and read.
- Built an AI-powered chatbot that allows users to select a deity and engage in meaningful conversations, helping them seek guidance and resolve personal concerns through simulated divine interaction.
- Implemented a blog section to share articles, teachings, and reflections on Hindu philosophy and spirituality.
- Created end-to-end solution from development to deployment, focusing on user-friendly, peaceful, and responsive interface to make spiritual learning accessible to a global audience.

User Management Dashboard & Full Stack Dashboard

Feb 2025 - July 2025

[Debugged Pro Internal](#)

Angular, Node.js, PostgreSQL, AWS

- Developed comprehensive dashboards for task assignment, leave tracking, clients, users, and inventory management.
- Implemented end-to-end full-stack solution with real-time data synchronization and user role management.
- Optimized database queries resulting in 40% faster load times and improved user experience.

E-Commerce Admin Panel & Backend Integration

July 2024 - Jan 2025

[The India Decor](#)

Angular, Node.js, PostgreSQL, AWS

- Built scalable admin panel and backend system for product, order, and payment management.
- Integrated third-party delivery APIs, Zoho email services, and WhatsApp client chat functionality.
- Implemented automated order processing workflow reducing manual intervention by 60%.

SuperAdmin Dashboard & Backend Development

Nov 2023 - July 2024

[TheMark Academy](#)

Angular, Node.js, PostgreSQL, AWS S3

- Created role-based admin system with comprehensive modules, topics, and activity tracking for learners.
- Designed and implemented user authentication, authorization, and data management systems.
- Delivered project on time with 95% user satisfaction rate and zero critical bugs.

EXTRA-CURRICULAR ACTIVITIES

Continuous Learning & Skill Development

- Keen interest in automation workflows and AI tool integration (n8n, Gemini, ChatGPT, etc.).
- Regularly attend webinars, workshops, and tech conferences to stay updated with latest trends.
- Resolved critical technical challenges and provided innovative solutions to complex business problems.

LEADERSHIP

- Led cross-functional teams of 3-5 developers in delivering complex web applications on time.
- Mentored junior developers and conducted code reviews to maintain high code quality standards.
- Facilitated knowledge sharing sessions and technical discussions within the development team.
- Successfully managed multiple concurrent projects with varying complexity and tight deadlines.
- Implemented agile development methodologies and improved team productivity by 25%.
